

PARIKSHIT DAS

Senior Full Stack Developer

parikshit.d@yahoo.com | +91 8777473022 | West Bengal, India

Profile

Senior Developer with 6 years of experience building full-stack JavaScript applications, distributed backends, and frontend systems. Deep hands-on experience with **Next.js 15 (App Router, Server Actions)**, **React 19**, and setting up real-time streaming features using the **Vercel AI SDK**. Proven track record handling heavy UI data rendering, microfrontends, and managing clean, cached state across complex enterprise projects.

Core Skills

- **Frontend:** React 19, Next.js 14/15 (App Router, RSC, Server Actions), TypeScript, Tailwind CSS v4 (CVA, tailwind-merge), AG Grid, Redux Toolkit, Zustand, TanStack Query.
 - **AI & Real-Time:** Vercel AI SDK (Streaming Chat, Data Stream Protocol), Server-Sent Events (SSE).
 - **Backend:** Node.js, Express.js, Python (FastAPI), Kafka, RabbitMQ, Redis, Microservices.
 - **DevOps & Tools:** Nx Monorepo, Docker & Docker Compose, K8s (With Awareness), GitHub Actions, Nginx, AWS SDK v3 (S3 Presigned URLs).
 - **Testing:** Playwright (E2E), Vitest (Unit/Component).
-

Work Experience

Experiture Global Pvt. Ltd. | *Senior Full Stack Engineer* | **June 2025 – Present**

- **Nx Monorepo Architecture:** Managed and scaled a large-scale application setup inside an **Nx Monorepo** for a UK-based corporate client to enable fast, independent module sharing and cut down CI/CD pipeline build times.
- **Next.js 15 Migration:** Moved core frontend dashboards to Next.js 15 and React 19, shifting heavy data logic to React Server Components (RSC) and Server Actions

to drop client-side bundle sizes.

- **Streaming AI Features:** Implemented streaming chat features using the **Vercel AI SDK** and handled the end-to-end integration of the Data Stream Protocol over Server-Sent Events (SSE) for real-time AI completions.
- **UI Systems & AG Grid:** Built out re-usable UI components using **Tailwind CSS v4** combined with `CVA` and `tailwind-merge`, using **AG Grid** to handle large, data-heavy reporting tables smoothly.
- **State Management & Caching:** Used **Zustand** for global client-side UI states and **TanStack Query** for handle-heavy server caching and background revalidation.
- **Secure File Pipelines:** Handled secure file uploads and downloads by writing secure server-side logic using **AWS SDK v3** to generate signed S3 URLs, alongside JWT session handling via `jose`.
- **Testing Automation:** Wrote full End-to-End automation flows with **Playwright** and component specs with **Vitest** to ensure local code modifications didn't break staging builds.

Kredent InfoEdge Pvt. Ltd. | Full Stack Engineer | July 2020 – June 2025

- **High-Traffic LMS Development:** Maintained and optimized elearnmarkets.com using React 18 and Redux Toolkit, focusing on reducing re-renders to accommodate thousands of active concurrent users.
- **Event Streaming & Media:** Developed *StockEdge TV* by using **Kafka** to handle real-time video metadata streaming pipelines. Containerized services using **Docker** for local development and isolated deployments.
- **Traffic Balancing & Queues:** Set up **Nginx** reverse proxies and load balancing rules. Managed heavy, asynchronous financial math calculations using **RabbitMQ** background message workers.
- **Legacy System Rewrites:** Led the technical migration of old CakePHP codebases over to a clean **Next.js 14** stack, significantly improving Web Vitals, SEO rankings, and initial load times.
- **Backend API Integration:** Worked alongside data engineering teams to safely consume and connect high-speed internal **Python / FastAPI** backend endpoints.

Ubinius Tech Solutions | Junior Software Developer | Dec 2019 – June 2020

- **ERP & Booking Systems:** Developed features, custom plugins, and database schemas for Hospital ERP applications and Hotel Booking sites using PHP and WordPress.
 - **Database Optimization:** Wrote clean, optimized SQL queries to build and deliver highly responsive websites for various local clients.
-

Education

- **B.Sc. (Hons.) Physics** — Vinayak Mission University (2016)
-

Personal Details

- **Date of Birth:** 04/01/1994
 - **Languages:** English, Hindi, Bengali
